Dear Pastor

Your Package was received and I hail and thank you on behalf of our Religion Society. We were very happy to hear you spraying us with God's Word through the tapes. The most beautiful lecture which drew most of our attention is that one with a little title 'LIONS LAKE & SUFFER'.

Pastor, since you sent me only two Tapes, I would again send you my application for being supplied with more and more tapes. As you hinted in a short note on the tapes, we find it impossible sharing two tapes among ourselves. And just to brief you I want to be your regular Correspondent and remain in the list of those with the desire of Tapes.

Pastor your preaching has contributed part of our Progressive attendance on our Sunday Prayers. We are organising a group in such a way that we are growing bigger and bigger from day to day. We believe that it is the will of God to guide us through your inspirations.

May the Disciples Ministry live for ever and continue illuminating us and those who are still in the tangible darkness away from God's News.

I remain yours Sincerely

Anselm Makene
